

This presentation will show the principles to follow and the materials to be used to increase efficiency, patient satisfaction, profitability and professional enjoyment when doing minimally invasive restorative dentistry. This course will change the way you approach your patients and make you more successful.

Among the Topics to be Discussed:

- Patient Evaluations
- Diagnosis
- Bleaching
- Materials and Techniques
- NuCalm Non-Pharmacologic Calming
- Lasers and Tissue Management
- Perio Concerns
- Veneer Considerations for No-prep, Minimal-prep and Traditional-prep Veneers
- Veneer Bonding Techniques
- Principles of Occlusion for Additive and Subtractive Dentistry
- How Orthodontia Can Help Facilitate Restorative Aesthetic Cases
