

# **The Helping Hand Partnership of the Dutchess County Dental Society**

***Everyone Gets Sick or Injured***

**When it happens to a dentist, the impact on the practice can be huge.**

**The Helping Hand Partnership is a panel of volunteer covering doctors who will each spend a few hours in the office involved to provide supervision for the hygienists so they can keep working and emergency care for the patients of that practice, if needed.**

**The more doctors on the panel, the less each will need to serve in such a crisis.**

***Think about it: The practice in trouble could be yours.***

**Please call Panel Coordinator Dr. Rich Whalen, Sr. at 229-9391 and tell him you want to be part of the Helping Hand Partnership and be available to help a colleague through a temporary crisis.**

**If you are a member in good standing of the Dutchess County Dental Society and you experience an unplanned and unexpected illness or injury that prevents your being physically present in your office and you want to request assistance from the Helping Hand Partnership, please contact the Panel Coordinator at the above number.**
